

JUST A NASHO

(Revised Edition)

by - Bill Parry (Ex 3,7,2,8,9,8/9 RAR and AATTV)

This book is a tribute mainly to our era of THE NASH OS who we trained and took to South Vietnam. This book contains a general rundown of the first National service scheme 1951-1959 and the second National service scheme 1965 - 1972 followed by personal stories. After this there is a story which is fiction based on fact of nine members of a infantry rifle section in Vietnam. This book was previously published in 2003 and sold 800 copies and since then I have been asked many times when I was going to print more copies so here it is, a revised edition which I am sure you will be happy with.
